

Finley Jon Rezazadeh

22nd February 2010 - 21st June 2010

Finley Jon Rezazadeh was born on 22nd February 2010, 4-weeks early, and diagnosed with Zellweger Syndrome.

We learnt during the pregnancy that Finley was likely to be born with this condition, which meant we were able to focus on enjoying the time we had with him.

He sadly passed away 4-months later on 21st June 2010, but not before his little personality blossomed and enriched our lives, giving us some lovely memories. We have since dedicated our energies towards helping the various charities that offered us help and support during his short life.

We wanted to set up the Galaxy Tribute fund as a memory to our gorgeous little boy, who touched the hearts of so many people, and to contribute towards the valuable work that Climb carries out. Finley will always be remembered as our little shooting star, shining brightly for his short life and thereafter.
