

Tom Rice

This Galaxy Tribute Fund was opened to show our beautiful Son Tom Rice how proud we all are of him.

Tom was born on 2/11/13 and the first ten days of his life were just so exciting and then we got the phone-call to inform us that Tom has MCADD and this condition was picked up from the Newborn Screening – this came as a huge shock.

Initially this proved difficult for Tom as he also had silent reflux and was very difficult to feed – in Tom's early days we had many milk changes and hospital admissions due to different bugs and we as a couple were taught how to feed Tom via ng tube at home.

Tom had up to seven admissions in his first fourteen months where he was so strong and brave. Tom is now eighteen months old and is doing great. Tom and his big brother Joe are best friends – Joe is four and a half years old and has already become very protective of Tom!!!

It took me a long time to be able to contact Climb. I suppose I knew when I did this it would all become 'real'

I can now say I am so glad I did contact Climb – they are a wonderful charity and have provided so much information and support to Noel and myself.

We hope as a family that opening this galaxy Tribute Fund it will help Climb support all families who have been affected by metabolic diseases.

The money was raised through our fundraising event 'pub quiz' in Canal Court Hotel, Newry on 2nd April 2015 – with thanks to all our family and friends for their kind donations.

Lots of love Adele, Noel, Joe and Tom Rice xxxx

Total Amount Raised so far: £1,020.00
